The 310 metres long Kirwans Bridge is situated over the Goulburn River at Bailieston near Nagambie. It was opened in 1890 and is still in use for one-way motor traffic. The only comparable timber bridge in Victoria in terms of length is the 1927 Barwon Heads Bridge which is 308 metres long.

The TCCV have driven over The Kirwin Bridge on the way to Griffith back in 2015 and will once again cross this bridge on the 10th Mar 2018 on the way to Tocumwal.
