

## **Penrite Oil: Changes to operations**

For the past 18 month period we have been operating at a reduced capacity with the ups and downs of the impacts of Covid-19, alongside this we have been working on a number of race car restoration projects, recent staffing changes and with the commencement of the upcoming Lane 88 Museum opening it has become unfeasible to operate the retail business at Bayswater as we once did.

As such we have had to make the decision to close the Motofluid retail business at Havelock Drive Bayswater effective immediately.

We would like to take the opportunity to thank all of the customers, car clubs and friends that have supported us over the years.

And while our retail store is closed, Penrite are still fully committed to producing our speciality range of Vintage, Veteran and Classic products.

We would also like to let you know that we have some exciting things happening in 2022, including a refreshed junior racing team program and a soon to be opened car and bike museum - including off street parking with car club meeting facilities. – more details to come shortly.

For all product recommendations and local stock availability on the Vintage, Veteran and Classic ranges (Along with the entire Penrite range).

Please call Penrite Technical on 1300 736 748 or visit <https://penriteoil.com.au/products/brands/classic> then click on **stock locator** to find products in your area.

Again Thank you on behalf of the Dymond Family and entire Motofluid staff for your understanding and we look forward to seeing you all trackside in 2022

Kind Regards

Jarrold
